Consider the wall thickness including the final covering

INSTALLATION

Use a level to find the correct position

For **in-wall installation**, drill the wall and use plugs and screws to fix the box to the wall

For **frame installation**, use the screws to fix the box to the wood panels

For **plasterboard**, use the screws to fix the box to the drywall

Before tiling fix the membrane to the wall using glue

Drill a 56 mm on the wall covering to allow the cutting of the plastic protections and to ease future maintenance
